CodeChef

Gurugram, India

EDUCATION

National Institute of Technology, Kurukshetra
B.Tech in Computer Science and Engineering

2024 – 2028

CGPA: 9.53

Savitri Devi Vidya Niketan

2021-2023

Senior Secondary Education (12th)- CBSE Board

96.8%

EXPERIENCE

Open Source Contributor — GirlScript Summer of Code (GSSoC 2025)

Remote

- Improved **UI components**, **state handling**, and **conditional rendering**.
- Collaborated via **GitHub issues**, **pull requests**, and structured **code reviews**.

SKILLS

Programming Languages: Java, JavaScript, Basic C++, Python

Frontend Development: HTML5, CSS, Tailwind CSS, React.js, Responsive UI Design

Backend Development: Node.js, Express.js, RESTful APIs, Authentication (JWT), MVC Architecture

Databases: MongoDB, Schema Design, Indexing, Query Optimization

Developer Tools & Platforms: Git, GitHub, n8n Automation, VS Code, Postman

Core CS Concepts: Data Structures & Algorithms, OOPs, DBMS, Basic OS Concepts

PROJECTS

Medicare Health Bot  — Telegram Bot, n8n, Automation

- Designed an **interactive Telegram chatbot** using button-based flows to collect **user demographics** (age, gender, caste, state).
- Engineered **automated n8n pipelines** to fetch, filter, and rank government health schemes based on eligibility logic.
- Implemented **priority-based matching algorithms** to surface **exact-fit schemes** over generic recommendations.
- Reduced manual search effort by **90%** through fully automated scheme discovery and personalization.

Blogging Web Application  — HTML, CSS, Node.js, Express.js, MongoDB

- Built a **full-stack blogging platform** enabling users to **create, edit, delete, like, and comment on posts**.
- Implemented **JWT-based authentication** with role-based access and protected routes.
- Designed **relational-like data models** in MongoDB to efficiently manage **users, posts, likes, and comments**.
- Developed optimized **CRUD APIs** with proper validation, indexing, and error handling.

URL Shortener  — Node.js, Express.js, MongoDB

- Developed a **scalable URL shortening service** with unique hash generation, redirection handling, analytics-ready schema design, and persistent storage.
- Integrated **JWT-based authentication** to enable **secure session management**, personalized dashboards, and user-specific shortened links.

ACHIEVEMENTS

- AIR 10014** in JEE Main 2024 (1.4M+ candidates) and **AIR 9945** in JEE Advanced 2024
- First Runner-Up**, HackShetra Hackathon organized at NIT Kurukshetra
- Participated in **Smart India Hackathon (SIH)** and **Israeli-Indian Hackathon**
- Solved **300+ DSA problems** on coding platforms

VOLUNTEERING

- Shiksha Society (SCSA):** Mentored students through **guidance sessions** and **educational events**.
- Technobyte:** Participated in and assisted with **technical workshops** and **coding events**.
